Education

University of Texas at Dallas — Richardson, TX
Bachelor of Science in Computer Science, Minor in Business Analytics and AI — *May 2028*

Experience

Software Engineering Intern — May 2026 – Aug 2026
LinkedIn — *Mountain View, CA*

- Built LangGraph multi-agent orchestration for Helios in Python and gRPC across 5+ modes, cutting routing latency 25%
- Integrated Workday, SmartRecruiters, and ServiceNow through MCP tooling into one conversational interface
- Deployed agent workflows across Slack, Teams, and web using Kafka and Kubernetes within a three-person pod

Undergraduate Machine Learning Research Assistant — Sep 2025 – Feb 2026
University of Texas at Dallas — *Richardson, TX*

- Processed 50+ hours of behavioral recordings (10K+ segments) in MATLAB and Python, cutting preprocessing time 30%
- Produced 30+ research visualizations and validated classification pipelines against faculty-reviewed annotations
- Documented preprocessing workflows and standardized datasets with faculty and graduate researchers for analysis

Software Engineering Intern — Jun 2023 – Mar 2024
HSK Technologies — *Newark, NJ*

- Eliminated 20+ hours of manual work per week with 50+ Python scripts and 5+ ETL pipelines across 15+ APIs
- Built automated testing and monitoring that caught data-quality failures before ingestion across recurring pipelines
- Maintained Python and SQL transformation and scheduling logic, documenting pipelines to speed up handoffs and debugging

Projects

Stride | *Electron, Node.js, Garmin, Strava, Claude, MCP* — Jul 2026

- Built a macOS AI running coach combining Garmin recovery metrics and Strava data for pace, HR-zone, and cadence guidance
- Cut half-marathon time from 2:58:00 to 2:12:58 in five months using a Garmin MCP integration to guide training
- Integrated the Anthropic API into a conversational coach surfacing HRV, sleep, and training-load trends

EcoFin Carbon | *TypeScript, Gemini, Nessie API, Vite, Tailwind* — Oct 2025

- Won 1st Place at HackTX 2025 ($1,000) with an AI fintech platform converting transactions into carbon-emission estimates
- Integrated Capital One Nessie and Gemini APIs to generate personalized sustainability recommendations
- Led frontend development of a responsive Vite and Tailwind interface visualizing emissions and ranked reduction actions

BudgetCents | *Python, Flask, React, Stripe, SQL* — Nov 2024

- Won 1st Place at HackFin 2024 ($400) with a full-stack finance platform built on Flask, React, Stripe, and SQL
- Automated expense tracking, transaction categorization, and budget analytics through interactive financial dashboards
- Designed SQL schemas and Flask REST endpoints for users, transactions, and budgets, with Stripe payment workflows

Leadership & Campus Involvement

Developer Lead — Oct 2025 – Present
FinTech UTD — *Richardson, TX*

- Lead development of student fintech software projects from requirements and system design through launch
- Mentor student engineers on backend systems, REST APIs, databases, and production practices through code reviews
- Set engineering standards for Git workflows, testing, and documentation to keep delivery consistent across teams

Vice President of Brotherhood — 2025 – Present
Alpha Kappa Psi — *Richardson, TX*

- Coordinate chapter-wide programming and member engagement initiatives across the professional business fraternity
- Collaborate with the executive board on internal initiatives, event logistics, and organizational operations
- Plan brotherhood events and member development activities that strengthen chapter culture and long-term retention

Technical Skills

Languages: Python, Java, C, C++, C#, TypeScript, JavaScript, SQL, Swift, Bash, Rust, R, HTML/CSS
Frameworks & Web: React, Next.js, Node.js, Express.js, Spring Boot, FastAPI, Flask, REST APIs, Selenium
AI/ML: PyTorch, TensorFlow, OpenCV, YOLOv8, NumPy, Pandas, Keras, PostgreSQL, MySQL, MongoDB, Redis
Cloud & Technologies: AWS (EC2, S3), Azure, GCP, Docker, Kubernetes, Kafka, Git, Linux, CI/CD, Splunk, GraphQL

Achievements & Interests

- **2x Hackathon Winner** (1st, HackTX 2025 & HackFin 2024; over $1,400 in prizes)
- **BPA Top 3 National Finalist**, Business and Stock Simulation; placed 3rd nationally, competing against 20 other teams
- **Interests:** FinTech Infrastructure, Backend Engineering, Distributed Systems, Machine Learning, Fitness, Running
