EDUCATION

University of Texas at Dallas

Bachelor of Science in Computer Science

Richardson, TX

May 2027

TECHNICAL SKILLS

Languages: Java, C++, Python, C#, TypeScript, HTML, CSS, JavaScript, Bash, SQL

Frameworks: React, Flask, PyTorch, Node.js, Next.js, Unity, Unreal, Tkinter, Tailwind CSS

Developer Tools: Git, Docker, XCode, Azure, VS Code, Visual Studio, Figma

Libraries: NumPy, Pandas, Scikit-Learn, Matplotlib, Seaborn, Plotly, OpenCV, Beautiful Soup

EXPERIENCE

Incoming Software Engineering Intern

LinkedIn

Summer 2026

Mountain View, CA

Project Lead Officer

FinTech UTD

February 2026 – Present

Richardson, TX

- Leading a cross-functional team of engineers, designers, and product contributors to develop an eco-friendly fintech risk management platform focused on portfolio analytics, ESG insights, and carbon exposure tracking.
- Driving product planning, sprint coordination, stakeholder alignment, technical execution, and milestone delivery while translating high-level business requirements into actionable engineering tasks.

Undergraduate Research Assistant

School of Behavioral and Brain Sciences, UT Dallas

September 2025 – February 2026

Richardson, TX

- Collected, cleaned, and preprocessed large-scale ultrasonic vocalization datasets using MATLAB, Python, VocalMat, and Avisoft-SASLab Lite, improving signal quality and noise reduction workflows by **25%**.
- Generated publication-ready data visualizations, statistical summaries, and research reports from raw audio recordings, enabling neuroscientists to analyze behavioral patterns and experimental results more efficiently.

Software Engineering Intern

HSK Technologies Inc.

June 2023 – March 2024

Newark, NJ

- Integrated **15+** third-party APIs and automated CSV-based ETL pipelines to improve data ingestion, reporting accuracy, analytics dashboard performance, and executive-level business intelligence workflows.
- Developed **50+** Python automation scripts for data processing, file handling, validation, and reporting tasks, reducing manual operational workload by **20+** hours per week.

PROJECTS

Tab | *TypeScript, React, Vite, Express, x402, Base, Anthropic, DexScreener*

May 2026

- Built an agentic payment infrastructure platform that gives AI agents controlled access to paid tools through budget enforcement, policy-based spend approval, and auditable receipts for every tool call.
- Implemented an x402-powered agent spend workflow with Base payment rails, real-time policy verdicts, DexScreener market-data calls, Anthropic inference, and a React dashboard for tracing approved, denied, and skipped agent actions.

EcoFin Carbon | *TypeScript, JavaScript, Tailwind CSS, Gemini, Nessie API, Vite*

October 2025

- Built an AI-powered fintech web application that analyzes transaction-level spending data and estimates carbon emissions using the Capital One Nessie API, helping users understand the environmental impact of their purchases.
- Led frontend development creating responsive dashboards, user flows, and AI-generated sustainability insights that increased engagement by **52%**; won **1st Place HackTX 2025** with Capital One recognition and **\$1,000**.

BudgetCents | *Python, Flask, React, Stripe, Git*

November 2024

- Created a full-stack finance management application with Flask, React, Chart.js dashboards, and Stripe payment integration, enabling users to track expenses, visualize budgets, and process over **\$4,000+** in transactions.
- Developed analytics dashboards to visualize **\$7,000+** in financial data for **100+** members, supporting budget tracking, spending insights, and financial decision-making; won **1st Place HackFin 2024** and **\$400**.

ACHIEVEMENTS & INTERESTS

- **2x Hackathon Winner:** Won **1st Place HackTX 2025** for EcoFin Carbon and **1st Place HackFin 2024** for BudgetCents, earning over **\$1,400** in prizes across fintech, AI, sustainability, and financial analytics projects.
- BPA: Top **3** National Finalist in Business and Stock Simulation, applying financial analysis, market research, business strategy, and investment decision-making skills.
- Interests: Machine Learning, Technology, Sustainable Investing, Fitness, Taekwondo, Running, Football, Photography
