Education

University of Texas at Dallas — Richardson, TX
Bachelor of Science in Computer Science, Minor in Business Analytics and AI — *May 2028*

Experience

Software Engineering Intern — May 2026 – Aug 2026
LinkedIn — *Mountain View, CA*

- Built Helios orchestration in Python, gRPC, and LangGraph across 5+ agent modes, reducing routing latency 25%
- Unified Workday, SmartRecruiters, and ServiceNow through MCP tools in one conversational interface
- Deployed agent workflows to Slack, Teams, and web using Kafka and Kubernetes in a three-engineer team

Undergraduate Machine Learning Research Assistant — Sep 2025 – Feb 2026
University of Texas at Dallas — *Richardson, TX*

- Automated preprocessing of 50+ recording hours and 10K+ segments in Python and MATLAB, cutting time 30%
- Validated classification pipelines against faculty-reviewed annotations and created 30+ research visualizations
- Standardized datasets and documented preprocessing workflows with faculty and graduate researchers

Software Engineering Intern — Jun 2023 – Mar 2024
HSK Technologies — *Newark, NJ*

- Automated 5+ ETL pipelines across 15+ APIs with 50+ Python scripts, saving 20+ hours of manual work weekly
- Built automated tests and pipeline monitoring to detect data-quality failures before ingestion
- Maintained Python and SQL transformations and scheduling; documented pipelines for debugging and handoffs

Projects

Stride | *Electron, Node.js, Garmin, Strava, Claude, MCP* — Jul 2026

- Built a macOS AI running coach integrating Garmin and Strava data for pace, HR-zone, and cadence guidance
- Used Garmin MCP training insights while improving my half-marathon time from 2:58:00 to 2:12:58 in five months
- Integrated the Anthropic API to explain HRV, sleep, and training-load trends through conversational coaching

EcoFin Carbon | *TypeScript, Gemini, Nessie API, Vite, Tailwind* — Oct 2025

- Won 1st place and $1,000 at HackTX 2025 for an AI fintech platform estimating carbon emissions from transactions
- Integrated Capital One Nessie transaction data with Gemini to generate personalized sustainability recommendations
- Led frontend development in Vite and Tailwind, displaying emission estimates and prioritized reduction actions

BudgetCents | *Python, Flask, React, Stripe, SQL* — Nov 2024

- Won 1st place and $400 at HackFin 2024 for a finance platform built with Flask, React, Stripe, and SQL
- Automated expense tracking, transaction categorization, and budget analysis through interactive dashboards
- Designed SQL schemas and Flask REST APIs for users, transactions, and budgets; integrated Stripe payments

Leadership & Campus Involvement

Developer Lead — Oct 2025 – Present
FinTech UTD — *Richardson, TX*

- Lead student fintech projects through requirements, system design, development, and launch
- Mentor engineers through code reviews covering backend services, REST APIs, databases, and production practices
- Standardize Git workflows, testing, and documentation to support consistent delivery across project teams

Campus Ambassador — Sep 2026 – Present
Corca Research — *Richardson, TX*

- Average 200+ student signups monthly through campus outreach and demos of Corca's collaborative math workspace
- Map high-enrollment STEM courses and curate public lecture notes, assignments, and exams for platform onboarding
- Represent an AI math startup backed by NVIDIA's NVentures and Bloomberg Beta, with $7.8M in funding

Technical Skills

Languages: Python, Java, C++, C, C#, TypeScript, JavaScript, SQL, Swift, Bash, Rust, R, HTML/CSS
Backend & Web: FastAPI, Flask, Spring Boot, REST APIs, gRPC, React, Next.js, Node.js, Express.js, GraphQL
Databases & Cloud: PostgreSQL, MySQL, MongoDB, Redis, AWS (EC2, S3), Azure, GCP
Infrastructure: Docker, Kubernetes, Kafka, Git, Linux, CI/CD, Splunk
AI/ML: LangGraph, MCP, PyTorch, TensorFlow, OpenCV, YOLOv8, NumPy, Pandas, Keras

Achievements & Interests

- **2x Hackathon Winner:** HackTX 2025 and HackFin 2024; $1,400 in combined prizes
- **BPA National Finalist:** Placed 3rd in Business and Stock Simulation, competing against 20 other teams
- **Interests:** Fintech Infrastructure, Backend Engineering, Distributed Systems, Product Development, Running
